**DETAILED ACTION**

1. This office action is responsive to the communication filed on June 6, 2000.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-59, 83-89, 93 and 94, drawn to a method and medium for facilitating a transaction by matching offers from buyers and sellers, classified in class 705, subclass 26.
  - II. Claims 60-72, drawn to a method and medium for facilitating a transaction comprising determining an item price, classified in class 705, subclass 26.
  - III. Claims 73-82, drawn to a method for facilitating a transaction comprising determining a subsidy, classified in class 705, subclass 26.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions each recite limitations that are not contained in the other inventions.

Invention I recites matching seller and buyer offers, this step is not recited in inventions II and III. Invention, II recites determining a price for an offer to sell, or an offer to buy. This limitation is not included in the Invention I or II. Invention III recites determining a subsidy. This step is not included in invention I or II.

Application/Control Number: 09/586,742  
Art Unit: 3625

Because these inventions are distinct for the reasons given above and the search required for Invention I is not required for Inventions II or III, restriction for examination purposes as indicated is proper.
